

EYE ON THE LIGHT

I don't even know what
I'm gonna say
A deer inside a headlight
And the car is dark grey

Sometimes it's a struggle
To fight another day
I promise you one thing
I'ma be okay

Now that i'm here
And I'm feeling so strong
I won't shed a smile
'Cause I know i'm not done

Although I try to be
A picture of dreams
I'm pushing forward
For a brand new kind of me

I will, I will be strong enough to get through
I'll try, not to live inside doubt
I know, I know it takes a little bit of time
But I will survive, here in the fight
With my eye on the light, I'll be alright

Life isn't easy
But that's not why I try
Imagining a future
With my head held up high

Even if i'm crying
Gotta keep on keeping on
Cause everything i've been through
Is a few lessons learned

Although I try to be
A vision of dreams
My hearts growing bolder
To set myself free

I will, I will be strong enough to get through
I'll try, not to live inside doubt
I know, I know it takes a little bit of time
But I will survive, here in the fight
With my eye on the light, Ill be alright

I will, I will be strong enough to get through
I'll try, not to live inside doubt
I know, I know it takes a little bit of time
But I will survive, here in the fight
With my eye on the light, Ill be alright
